Subject: Table of homes with high metals from the ATSDR and our review using new screening values

Humane - Here is the summary table of homes for the high metals (8 homes) primarily for manganese, but also 2 for arsenic and 1 for Aluminum) It does not pull the Lithium data that ATSDR also identified but looking at Rob Helverson's chart that would add the **Ex. 6 - Personal Privacy** residences with high Lithium, **Ex. 6 - Personal Privacy** also had high lithium but was listed for other compounds as well.

- our chart

ATSDR Chart:

For the Organics in green also the homes of concern, but we don't know who some are:
